

Guidelines for Presentation of Accepted Posters

Information for Presenting:

- Each presenter will have approximately 45 minutes to set up and speak about their topic.
- Ideally, your poster presentation should be designed and printed as one 3' (tall) x 4' (wide) poster.
- Push pins/tacks will be provided
- All posters will be presented on specific day and time scheduled.

Guidelines for Presentation of Accepted Symposiums

While symposiums take on different topics and presentation styles, this may help in planning. Symposium rooms may be conference style (chairs in rows) or banquet style (round tables and chair). Not all symposium rooms will have technology provided.

Two separate symposiums are scheduled into one room and will be given 30 minutes (first listed) and 30 minutes (second listed) with a room max of 60 minutes.

- Those listed first ideally need to ***begin wrapping up their session around 25 minutes*** to be finished at 30 minutes for the second to begin (second will also begin wrap up at 25 minutes for next session in room).
